Sabre Data Stream Changes for Car Total Pricing

INTRODUCTION

This document details the 5 new Sabre Data Stream MDR changes for the Sabre Cars Total Pricing project. Users of this document may be analysts that will test the functional changes as well as programmers that maintain the associated programs.

PURPOSE:

“Total Pricing is defined as the Approximate Total Price a consumer pays when renting a car. The approximate price includes the total of all rates, taxes, fees, and surcharges and applicable drop off charge that the customer must pay either by law or by local policy, for the length of a particular rental request.

This price does not include optional services such as insurance waivers, special equipment, mileage charges, or gasoline etc.”

The purpose of the Sabre Car Total Pricing project is to enhance the functionality of the car package by providing the Approximate Total Price of a car rental at time of rate display in shop or quote for the Direct Connect Car Associates. In addition to the Car Shop and Quote response, the Rate Rule response has been redesigned to provide details on what elements were used in calculating the Approximate Total Price. And finally, at point of sale the car associates will have the ability to return a new Approximate Price /AP- field in the car segment for reference and printing on the invoice/itinerary.

In order to accommodate the changes to the current responses and the additional elements the **Car Shop (CF), Car Quote (CQ), and Sell/Modify (0C, 0CAR, CM) MDR versions will ALL changed.**

Also see **Version Specific** for important information on using version numbers as part of your application format entries during transition testing.

TARGET IMPLEMENTATION PLAN

Total Pricing will be released in two phases.

PHASE I September 17, 2001

Phase 1 Highlights Total Pricing changes to the car sell/modify process and car segment or PNR itinerary displays. This phase will introduce the user to the new Approximate Price /AP- and Vehicle Provider /VP- fields returned from the car associate in the car segment.

Customer Acceptance testing via (TSTS system) for Phase 1 is scheduled to begin August 8, thru September 4, 2001

Implementation is planned for September 17, 2001.

Application	MDR	Version	Implementation Date	Purge Date
Car Sell/Modify	CAR000SDSSELL0	1		11/30/01
		2	9/17/01	

Application	MDR	Subset	Implementation Date	Purge Date
PNR display	TSGSDSPNRCARTP Subset of AIRAALSAD0PNR0 03	PN12	9/17/01	None

New Sell/Modify MDR Version 2 - Current Version 1 will be supported for 60 days after implementation.

New Subset PN12 of the PNR CAR000 will be supported along with earlier subsets only subset PN12 will contain the Approximate Total Price information and Vehicle Provider.

PHASE II (December 13, 2001)

Phase 2 includes all necessary changes to support the new Car Shop/Quote and Rate Rule detail green responses and new Sabre Data Stream MDR versions to support the changes.

Customer acceptance testing for Phase 2 will begin October 8th, 2001 in TSTS.
The following chart will define the changes and the implementation/purge date Plan

Application	MDR	Version	Implementation Date	Purge Date
Car Shop	CAR000CFR0000	2		12/13/01
		3		02/28/02
		4	12/13/01	
Car Quote	CAR000CQR0000	2		12/13/01
		3		02/28/02
		4	12/13/01	
Car Rule	CAR000RUR0000	2		02/28/02
		3	12/13/01	

Full release is planned for week of February 20, 2002, at which time all users will have access to the new screen responses for Car Shop, Quote and Rate/Rule detail. Due to the changes made to the Sabre Car programs to provide Total Pricing only the newest versions of MDR Sabre Data Stream for Sabre Cars will be supported after the Feb 20,2002.

VERSION SPECIFIC

When you are ready to test your new code or continue to use the older versions while they are available be sure to include the version number as part of your format entry at the end of the string.

&VV &= X, 50 VV version number i.e. 01 &01

Example:

Application	Format	Version Request
Car Shop	&&CFBOS/1NOV-5NOV/1P-1P&03	Current Version 3
Car Quote	&&CFBOS/1NOV-5NOV/1P-1P&04	New Version 4
Car Rule	&&CFBOS/1NOV-5NOV/1P-1P&03	Current Version 3
Sell Modify	&&0CARZINN1LAX/1NOV-5NOV/1P-1P&02	New Version 2

To request a specific subset PN12

- 1) The eSAPI configuration for the node must contain an application id.
- 2)The following must be added to the end of the request x'86'S=subset
example "JX PNR& S=PN12"
where & and PN12 is the subset ID.

This will return the message as defined by MDR "TSGSDSPNRCARTP".

Contact the SDS support Desk for additional information on using Subsets

SUBSET PN12 of AIRAALSAD0PNR0 03

for Car segment CAR000

This message defines the response for a car segment within a PNR display (*I, *A *IC entries)

Example: *IC

Add new rate breakdown for both the new Approximate Total Price /AP- field and the /RG and /RQ- information currently in the 00SS element. Also shown is a new Vehicle Provider field that will state the new of the company the traveler will actually pick up the car from if other than the Vendor Sold.

Example 1: SDSERR Error Response:

Entry: 0CARZENN1DFW19JAN-2FEB/DCAR/ARR-10A/RET-1020A

SDSERR		Nesting Level 0	
	0284	ERROR TYPE TEXT	"0041"
	000T	Free Text	"‡CHECK CAR TYPE FIELD - NOT A VALID CAR TYPE‡"

Example 2: DCAUX SELL- 000A' is for NAME ERROR (**No name field in PNR at time of Sell**)

Entry Valid input: 0CARZENN1DFW19JAN-2FEB/DCAR/ARR-10A/RET-1120A

SDSERR		Nesting Level 0	
	0284	ERROR TYPE TEXT	"000A"
	000T	Free Text	"SEG 1 HOURS-"
			"REG WED 0000-2359 *CORPORATE**"
			"** - DIRECT CONNECT NOT PROCESSED - **"
			"ENTER - NAME"
			"ORCF THE SEGMENT NUMBER TO RESEND DIRECT CONNECT REQUEST"

Example 3: NON DCS/DCAUX participant response to sell entry:

Entry: 0CAREZNN1DFW28JUN-30JUN/ECAR/ARR-1P/PH-8175551234

SDSTXT		Nesting Level 0	
	0109	ED6063 QUANTITY QUALIFIER	"1"
	00AY	IATA Free Text	"SEG 1 HOURS-"
			"REG WED 0700-1930 *CORPORATE**"

Example 4: DCAUX 000B' is for DCAUX ERROR

Entry: 0C1/BA-MARYANN SMITH

SDSERR		Nesting Level 0	
	0284	ERROR TYPE TEXT	"000B"
	000T	Free Text	"DIRECT CONNECT RESPONSE RECEIVED"
			"DIRECT CONNECT LINES DOWN"
			"*I AND ORCF THE SEGMENT OR ET FOR MANUAL PROCESSING"
